# B6 Multi-Effects Processor

ZOOM®

B6 Cabinet Simulations & IR Data Chart

The B6 provides cabinet emulations of 12 classic amp cabinets. In addition, the B6 provides 36 pre-loaded high-resolution impulse response (IRs), three different mic positions for each of the 12 cabinets. IRs offer a full variety of sonic responses when going directly to a PA or monitor system.

[Bass cabinets]

Room
On Mic (D20)
On Mic 2 (D57)

[Bass cabinets with tweeters]

Room
Tweeter (D57)
On Mic (D20)

Tweeter Mix : On Mic (D20) + Tweeter (D57)
