

# M2 Firmware Update Guide

Copyright(C) 2022 ZOOM CORPORATION. All Rights Reserved.

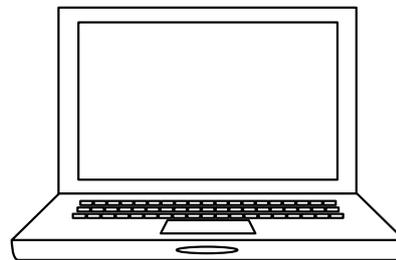

Proper display is not possible on grayscale devices.

## Introduction

### ■Item to prepare

M2

Windows or macOS computer  
with Internet access

microSD card

Supported recording media  
microSDHC: 4 GB – 32 GB  
microSDXC: 64 GB – 1 TB

Always format microSD cards on the M2  
after purchasing them new or using them with  
a different device.

### ■Firmware update process

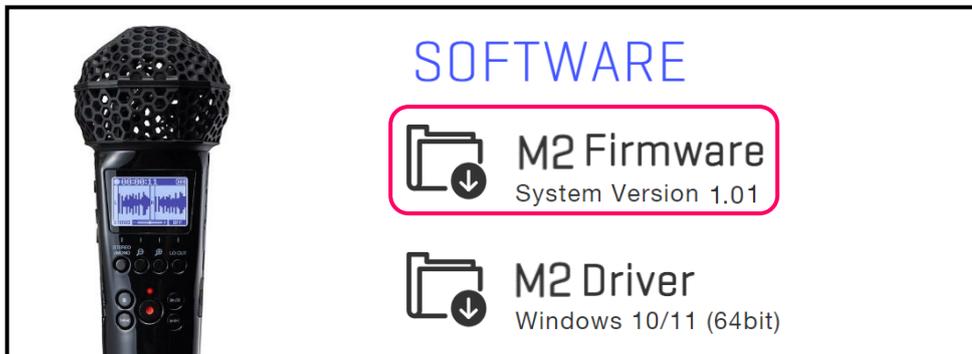

1. Download the firmware update file.
2. Extract the ZIP file.
3. Copy the extracted firmware update file to a microSD card.
4. Update the firmware.
5. Confirm that the firmware has been updated correctly.

# Updating the Firmware

This guide explains firmware update to version 1.01 as an example.

## 1. Download the firmware update file.

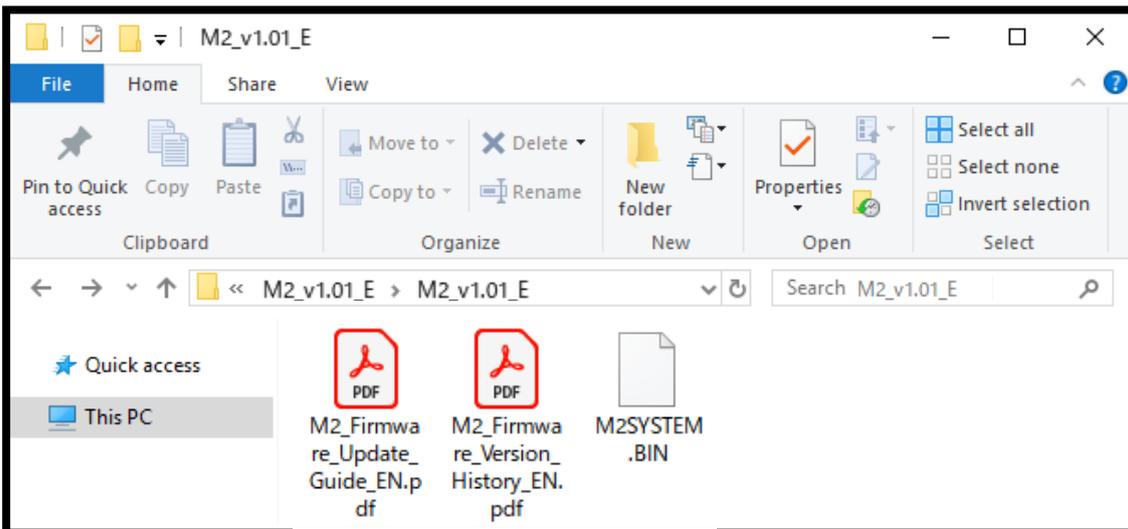

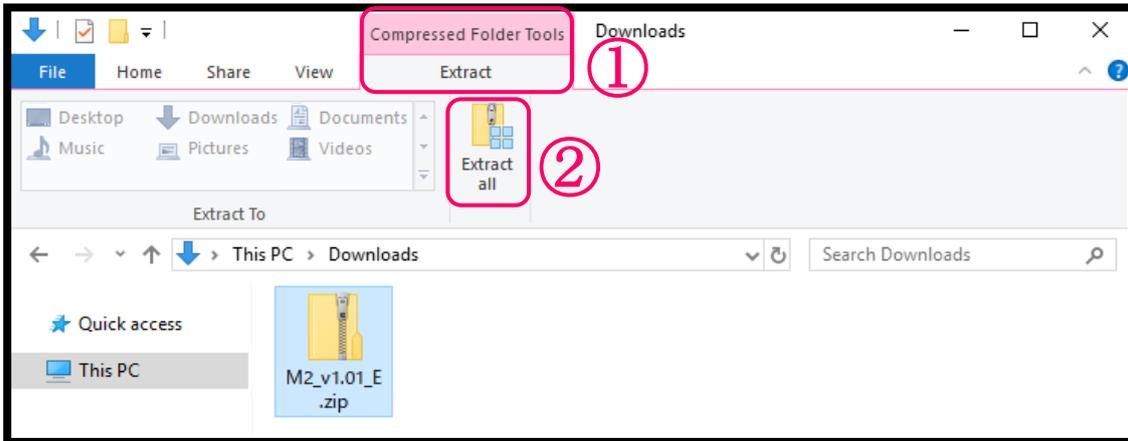

Download the ZIP file that contains the firmware update file from the M2 download page.

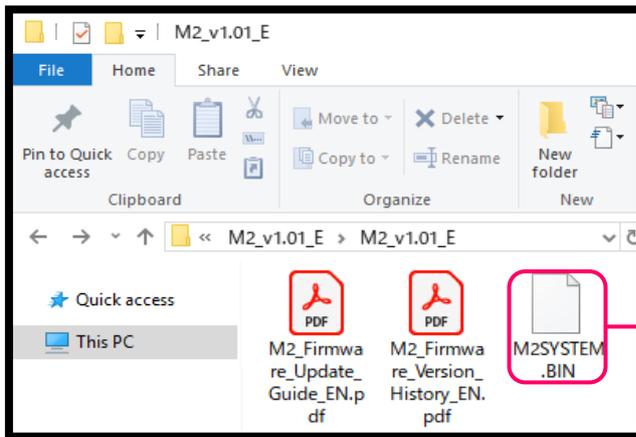

# On Windows

## 2. Extract the ZIP file

Select the folder that contains the downloaded ZIP file. Click ① “Compressed Folder Tools” and then click ② “Extract all”. This extracts the ZIP file.

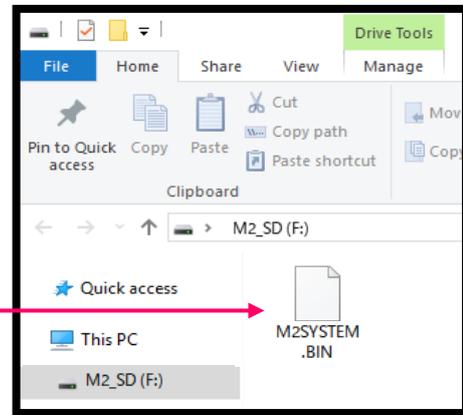

3. Copy the firmware update file to a microSD card.  
Copy the “M2SYSTEM.BIN” file to a microSD card.

Firmware update file

microSD

Copy the firmware update file to a microSD card.

## On macOS

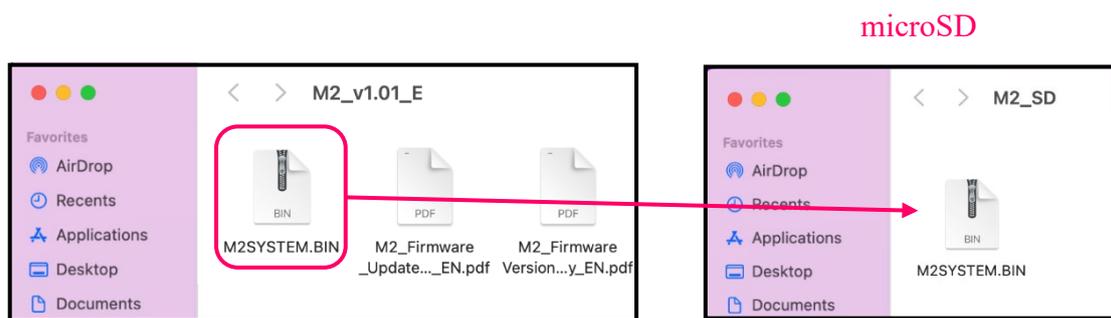

### 2. Extract the ZIP file.

After downloading, open the ①“Downloads” folder which appears at the right end of the Dock by default. Then, click ②. Downloaded files will be shown.

### 3. Copy the firmware update file to a microSD card.

Copy the “M2SYSTEM.BIN” file to a microSD card.

Firmware update file

Copy the firmware update file to a microSD card.

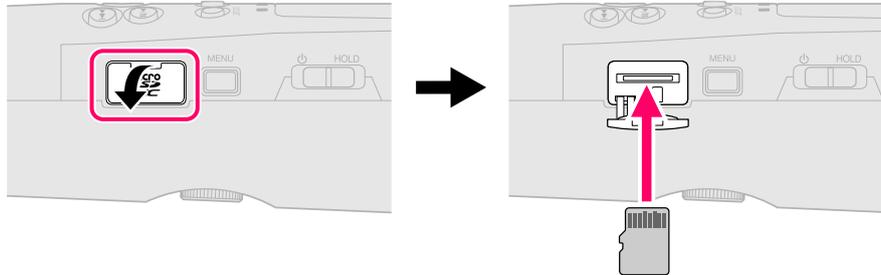

## The following procedures are the same on both Windows and macOS.

4. Install new batteries in the M2 or connect an AC adapter.

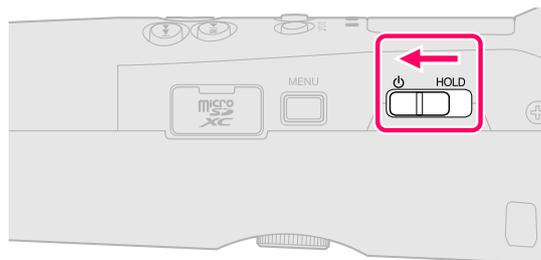

### NOTE

The firmware update is not possible if the remaining battery power is low.

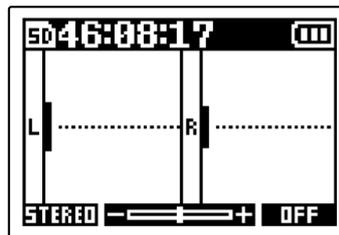

5. Insert the microSD card into the M2.

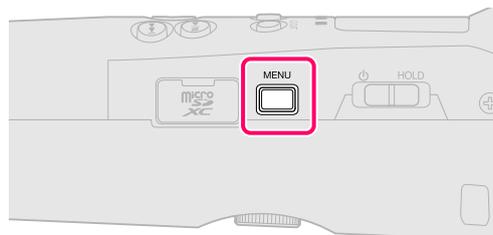

6. Slide  **HOLD** toward .

This turns the M2 power on and opens the Home Screen on the display.

7. Press .

This opens the Menu Screen on the display.

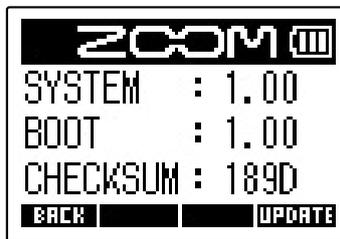

8. Use  and  to select “System” and press **ENTER** to confirm.

9. Use  and  to select “Firmware” and press **ENTER** to confirm.

10. Press **UPDATE**.

11. Use  and  to select “Execute” and press  to confirm.

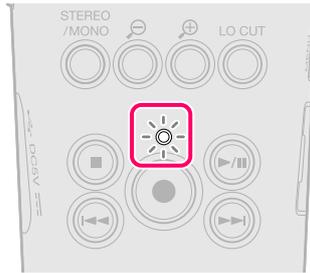

12. Slide  toward  until “Goodbye! See You!” appears on the display.

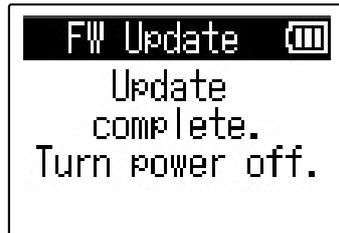

The display will become empty, and the power will turn off.

13. Slide  toward  again.

The update will be executed automatically, and the REC indicator will blink slowly.

After about 1 minute, a completion screen will appear.

**NOTE**

During the firmware update, do not turn the power off or remove the microSD card.

If the update fails, the REC indicator will blink rapidly. If this happens, turn the power off once and confirm that the microSD card is loaded correctly. Then, turn the power on and try updating again.

14. Turn the power off.

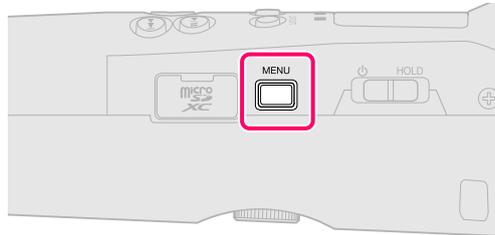

**NOTE**

If the firmware update failed, starting the unit might not be possible and the REC indicator might stay lit. Turn the power off and repeat steps 1–6.

# Confirming that the firmware has been updated correctly

Check the firmware versions used by the M2.

1. Press .

This opens the Menu Screen on the display.

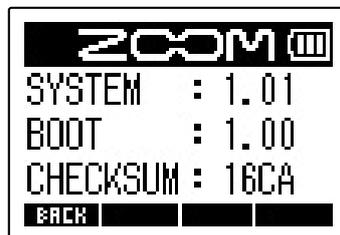

2. Use  and  to select "System" and press **ENTER** to confirm.

3. Use  and  to select "Firmware" and press **ENTER** to confirm.

4. Check the firmware version.
