Overview of the SessionZ Pedal App

SessionZ Pedal is a next-generation cloud service that expands the expressive capabilities of NEURIG. Going beyond the scope of a simple control app, it functions as a constantly evolving platform that leverages cloud processing power to, for example, offer text-based interactive AI sound generation, AI stem separation, session features integrated with YouTube videos, and tone retrieval from TONE3000.

Key Features

- Rig editing and management
- Importing IR
- Rig generation using Rig AI
- SessionZ Play (in-app player)

Installing SessionZ Pedal

For iOS/iPadOS Devices

1. Open the App Store on your iPhone or iPad and search for "SessionZ Pedal"
   You can also download it here.

2. Touch "Get" on the SessionZ Pedal screen
   This installs SessionZ Pedal.

For Android Devices

1. Open the Google Play Store on your Android device and search for "SessionZ Pedal"
   You can also download it here.

2. Touch "Install" on the SessionZ Pedal screen
   This installs SessionZ Pedal.

Making the Initial Setup

When you launch the app for the first time, the initial setup screen will appear. During initial setup, you'll do the following:

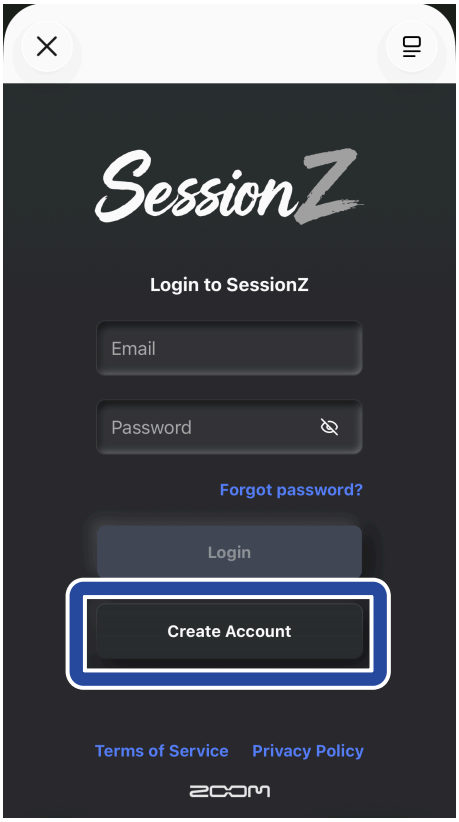

1. Create an account
2. Connect to the product
   Note: It will be connected automatically on subsequent uses.
3. Connect the product to Wi-Fi
   Note: If a product update is required, it will be performed at this time.

Initial Setup Procedures

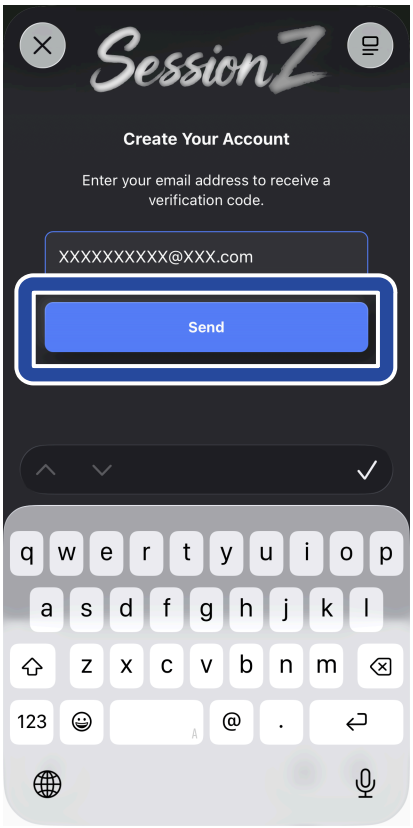

The following explanation includes performing a product update.

> **NOTE**
> Make sure Bluetooth is turned on on your smartphone or tablet beforehand.

1. Touch "Create Account"

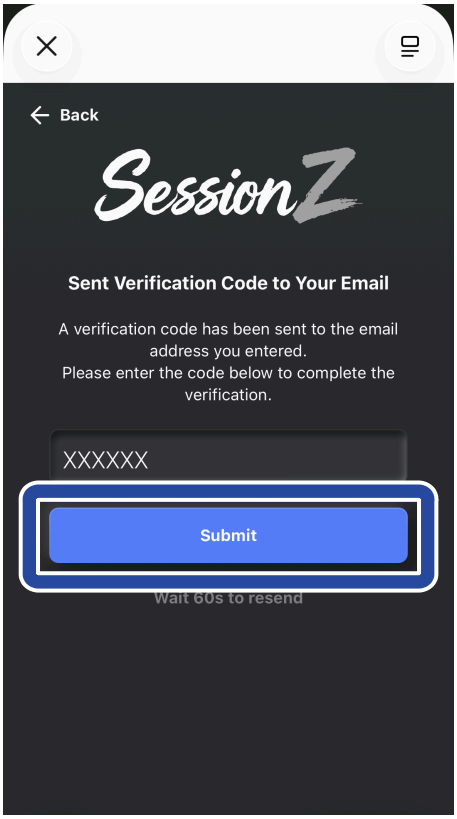

2. Enter your email address and touch "Send"

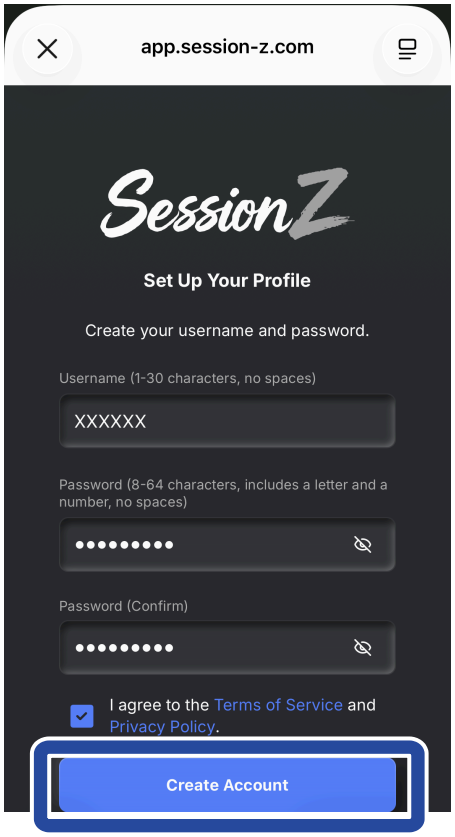

A verification code will be sent to your email address.

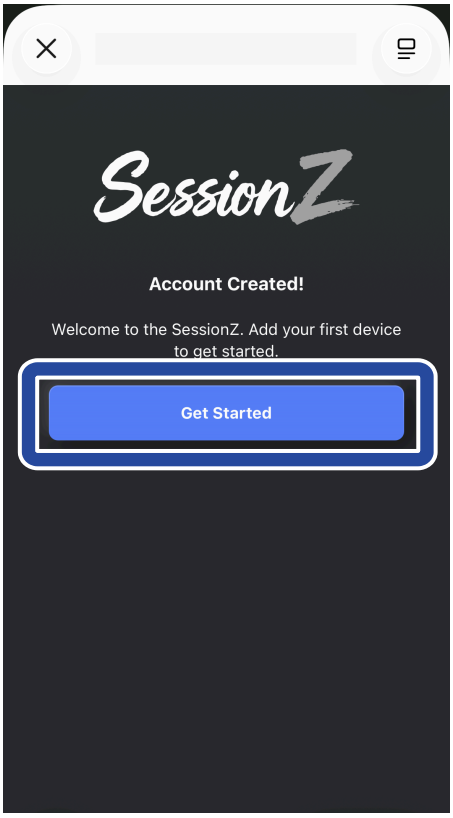

3. Enter the verification code and touch "Submit"

4. Enter your username and password, agree to the Terms of Service and Privacy Policy, and touch "Create Account"

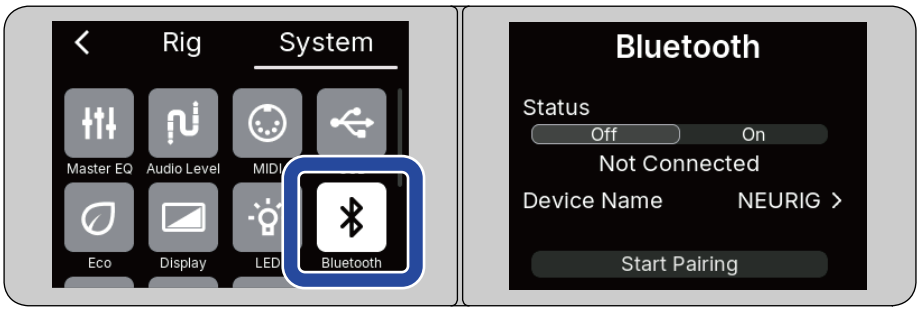

5. Touch "Get Started"

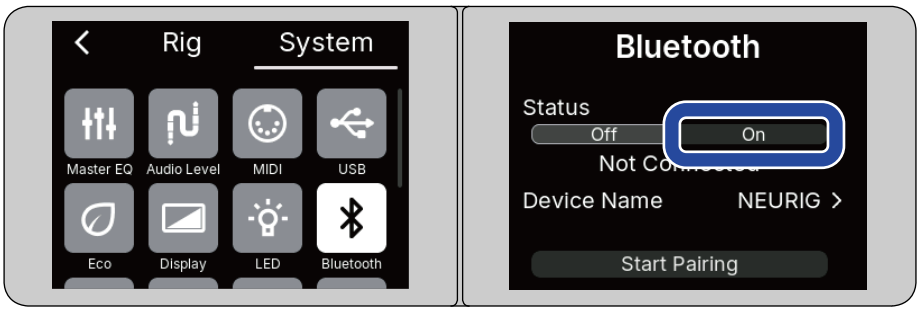

This creates the account.

■ Next, connect the product to your smartphone or tablet.

6. Open the product's system menu screen and touch the Bluetooth icon

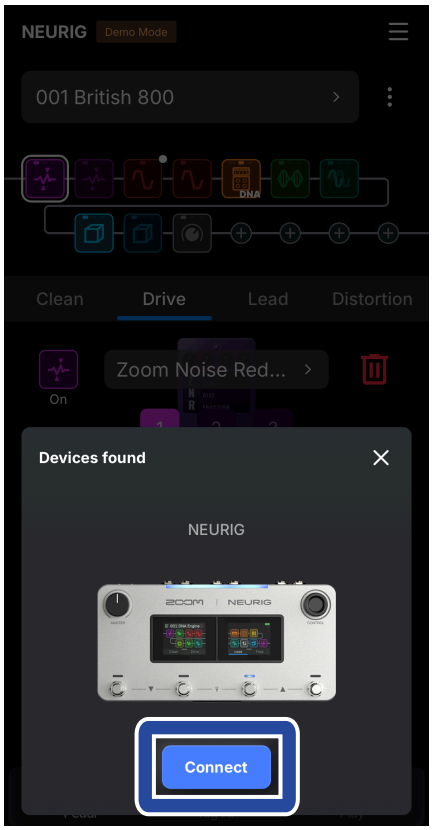

7. Touch "On"

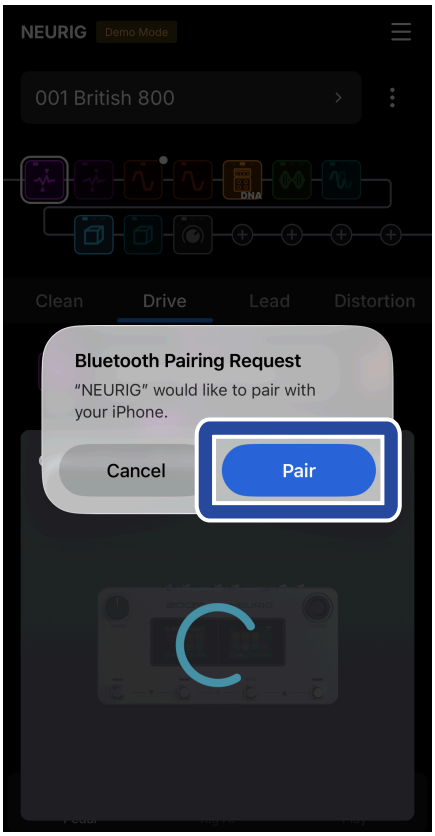

NOTE
Operate the product near your smartphone or tablet.

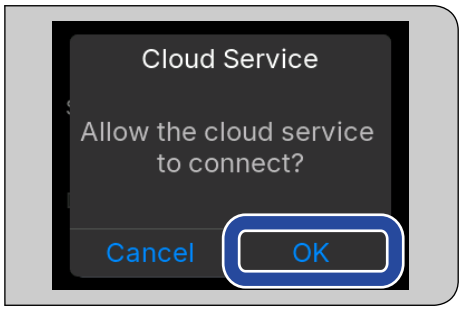

8. On your smartphone or tablet, touch "Connect"

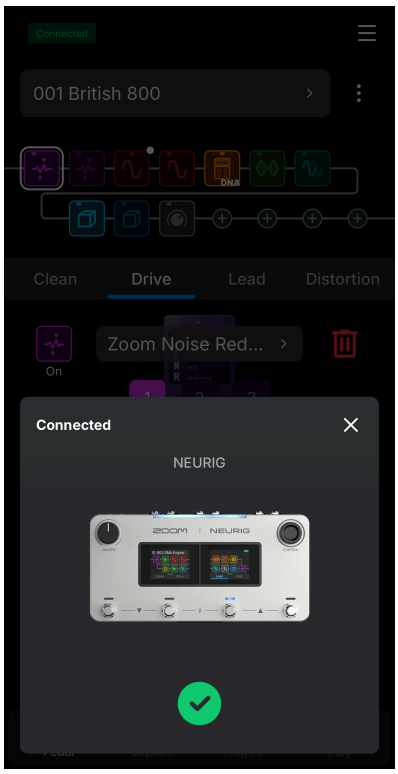

9. Touch "Pair"

10. Touch "OK" on the product

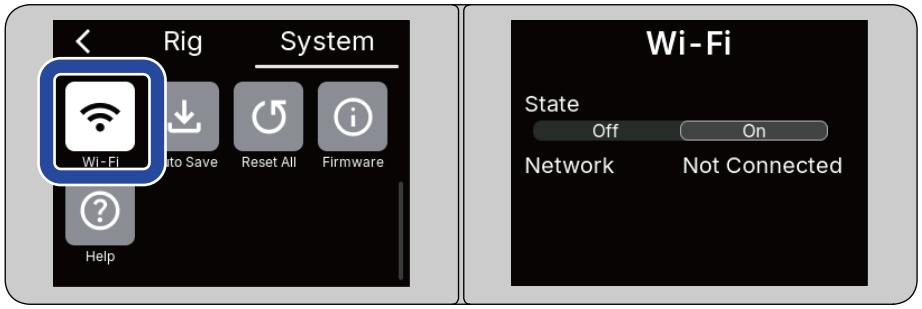

This completes the connection between your smartphone or tablet and the product.

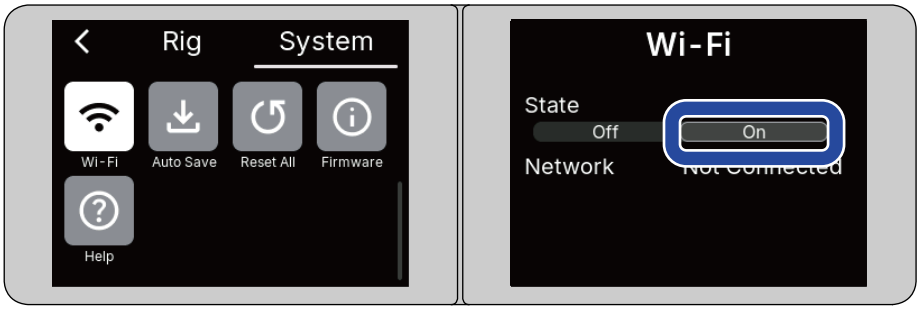

■ Next, set up the Wi-Fi connection and update the product.

NOTE
Make sure to turn on Wi-Fi on your smartphone or tablet beforehand.

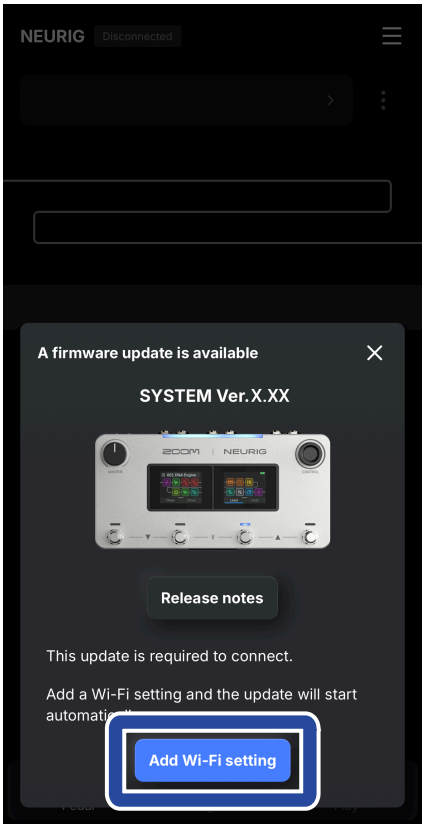

11. Open the product's system menu screen and touch "Wi-Fi"

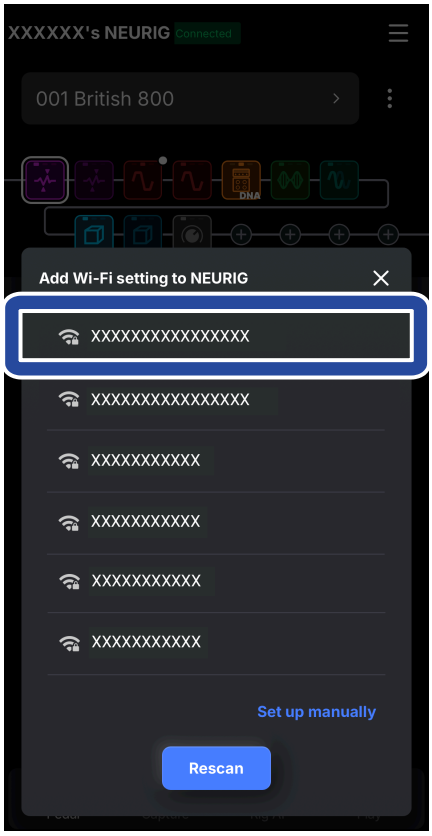

12. Confirm Wi-Fi is turned "On"

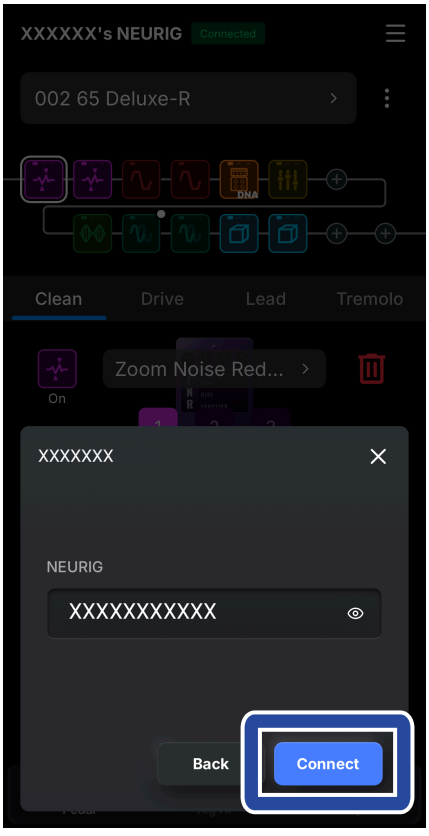

13. On your smartphone or tablet, touch "Add Wi-Fi setting"

14. Touch the network you want to connect to

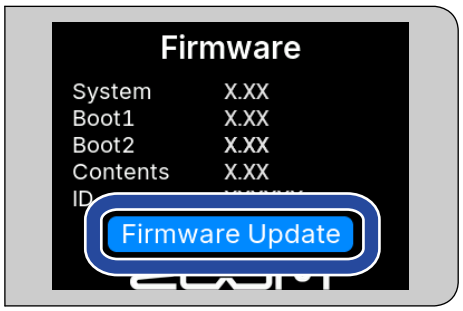

15. Enter the network password and touch "Connect"

16. Touch "Yes" on the product

17. Touch "Firmware Update" on the product

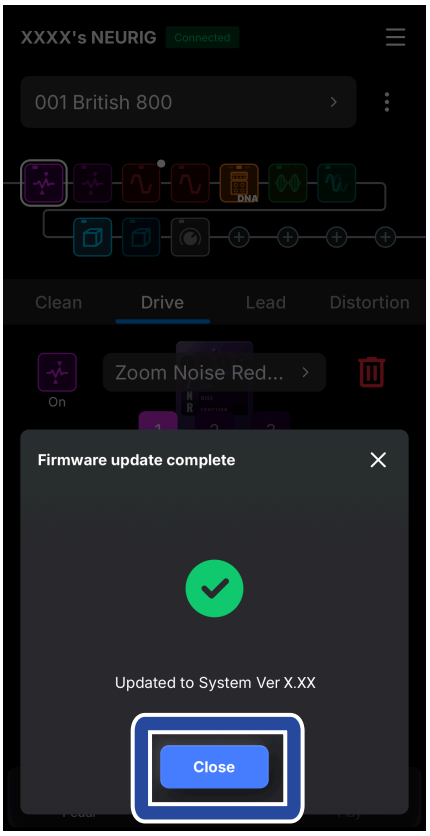

18. Touch "Execute" on the product

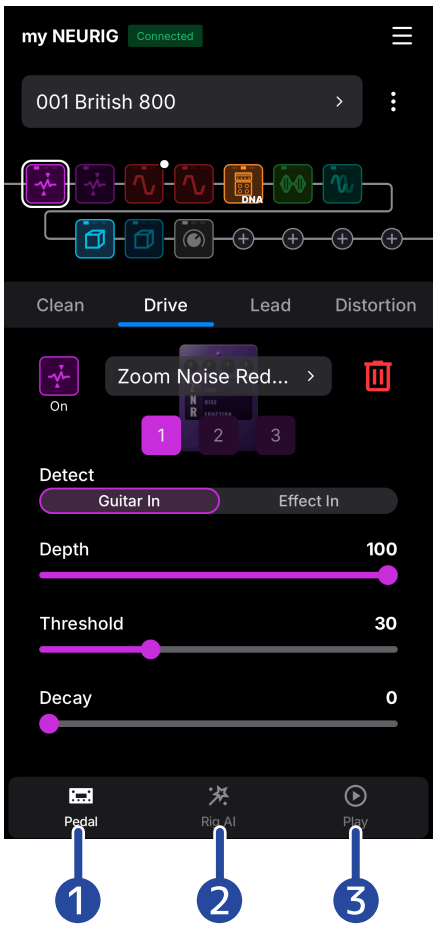

When Wi-Fi setup is complete, the product will connect to Wi-Fi, and the product update will begin. Follow the instructions on your smartphone or tablet screen to turn the product off and on.

19. Touch "Close"

This completes the update.

The Pedal screen will open.

1. Pedal Screen (→ Pedal Screen)
2. Rig AI Screen (→ Rig AI Screen)
3. Play Screen (→ SessionZ Play Screen)

If You Cannot Connect via Bluetooth

- Confirm Bluetooth on your smartphone or tablet is turned on.
- Confirm Bluetooth on the product is turned on.
- Place the product closer to your smartphone or tablet.
- If the product you are connecting is automatically connected to another smartphone or tablet, you may not be able to connect from a new device. Disconnect it from any devices you are not using, and then reconnect.
- If old pairing information remains on your smartphone or tablet, it might not be able to connect. Delete the "NEURIG" registration once in the Bluetooth settings on your smartphone or tablet, and then connect again.
- If you still cannot connect, restart both the product and your smartphone or tablet, and then try again.

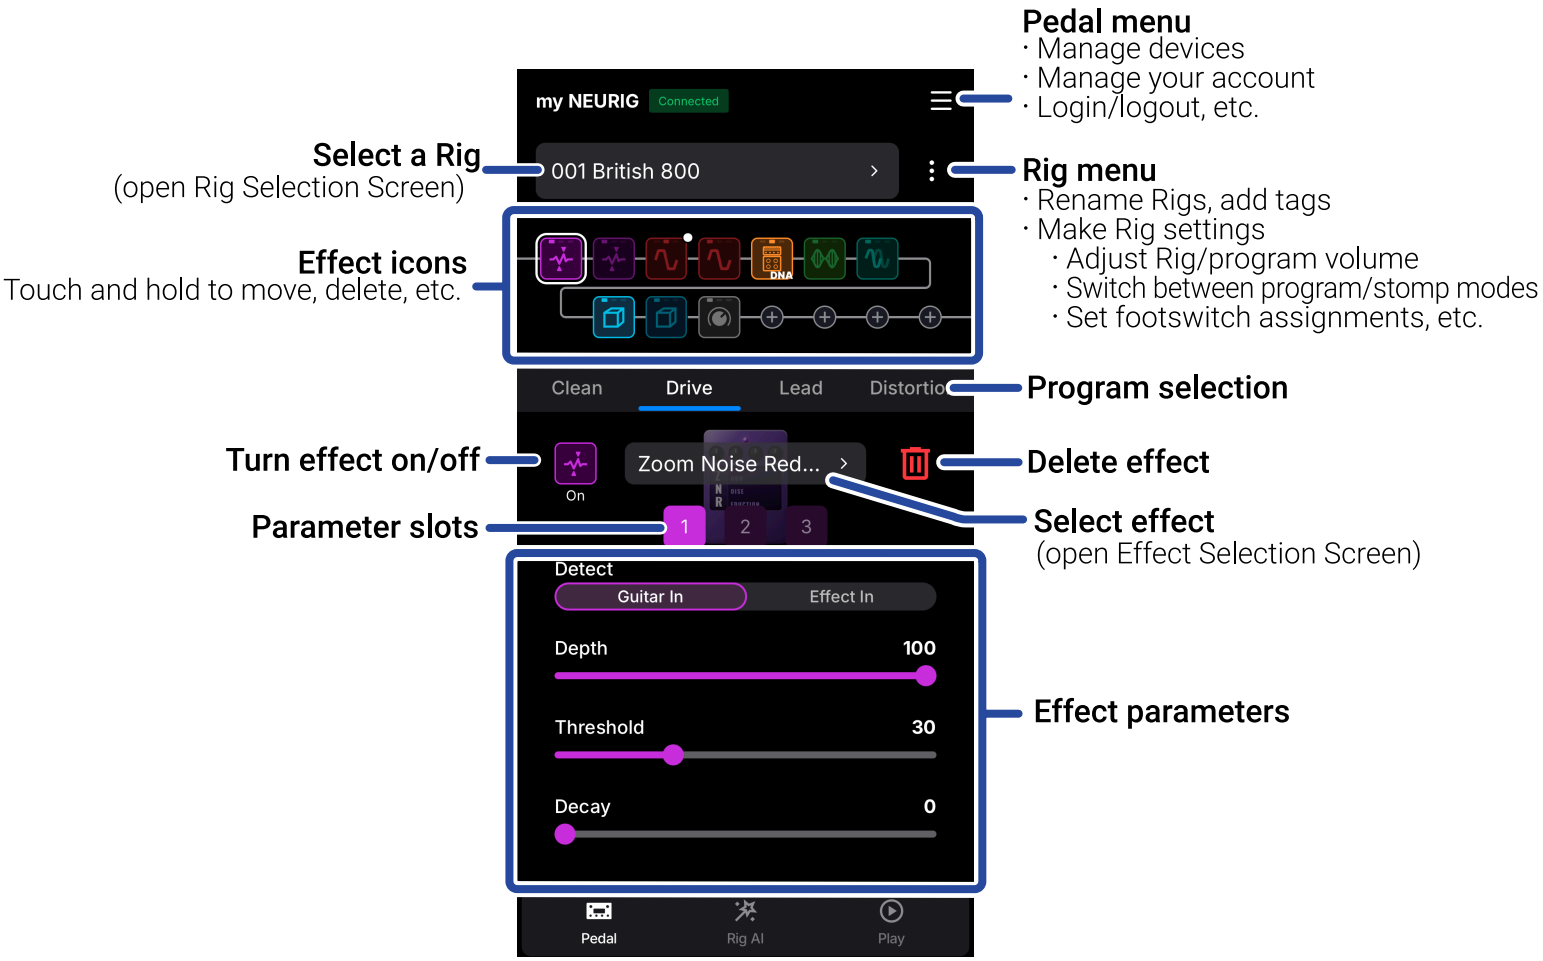

If You Cannot Connect to Wi-Fi

- Confirm that the Wi-Fi router is turned on.
- If the network you want to connect to does not appear in the list, perform a "Rescan" in step 14.
- If the Wi-Fi signal is weak, the network may not appear in the list or it might not be able to connect. If so, move the product or your smartphone or tablet closer to the Wi-Fi router.
- Networks with a lock icon require a password to connect. Confirm the password you entered is correct, including uppercase and lowercase letters.
- If a network that was able to be connected is not automatically connected again, the password or other settings may have been changed on the Wi-Fi router. Delete the saved network on your smartphone or tablet, and then connect again.
- Connecting with networks that require logging in via a web browser or agreeing to terms of use (such as Wi-Fi at public facilities or guest Wi-Fi) is not possible. Use a network that can be connected with only a password.
- If connection is still not possible, restart the product, your smartphone or tablet, and the Wi-Fi router. Then, try again.

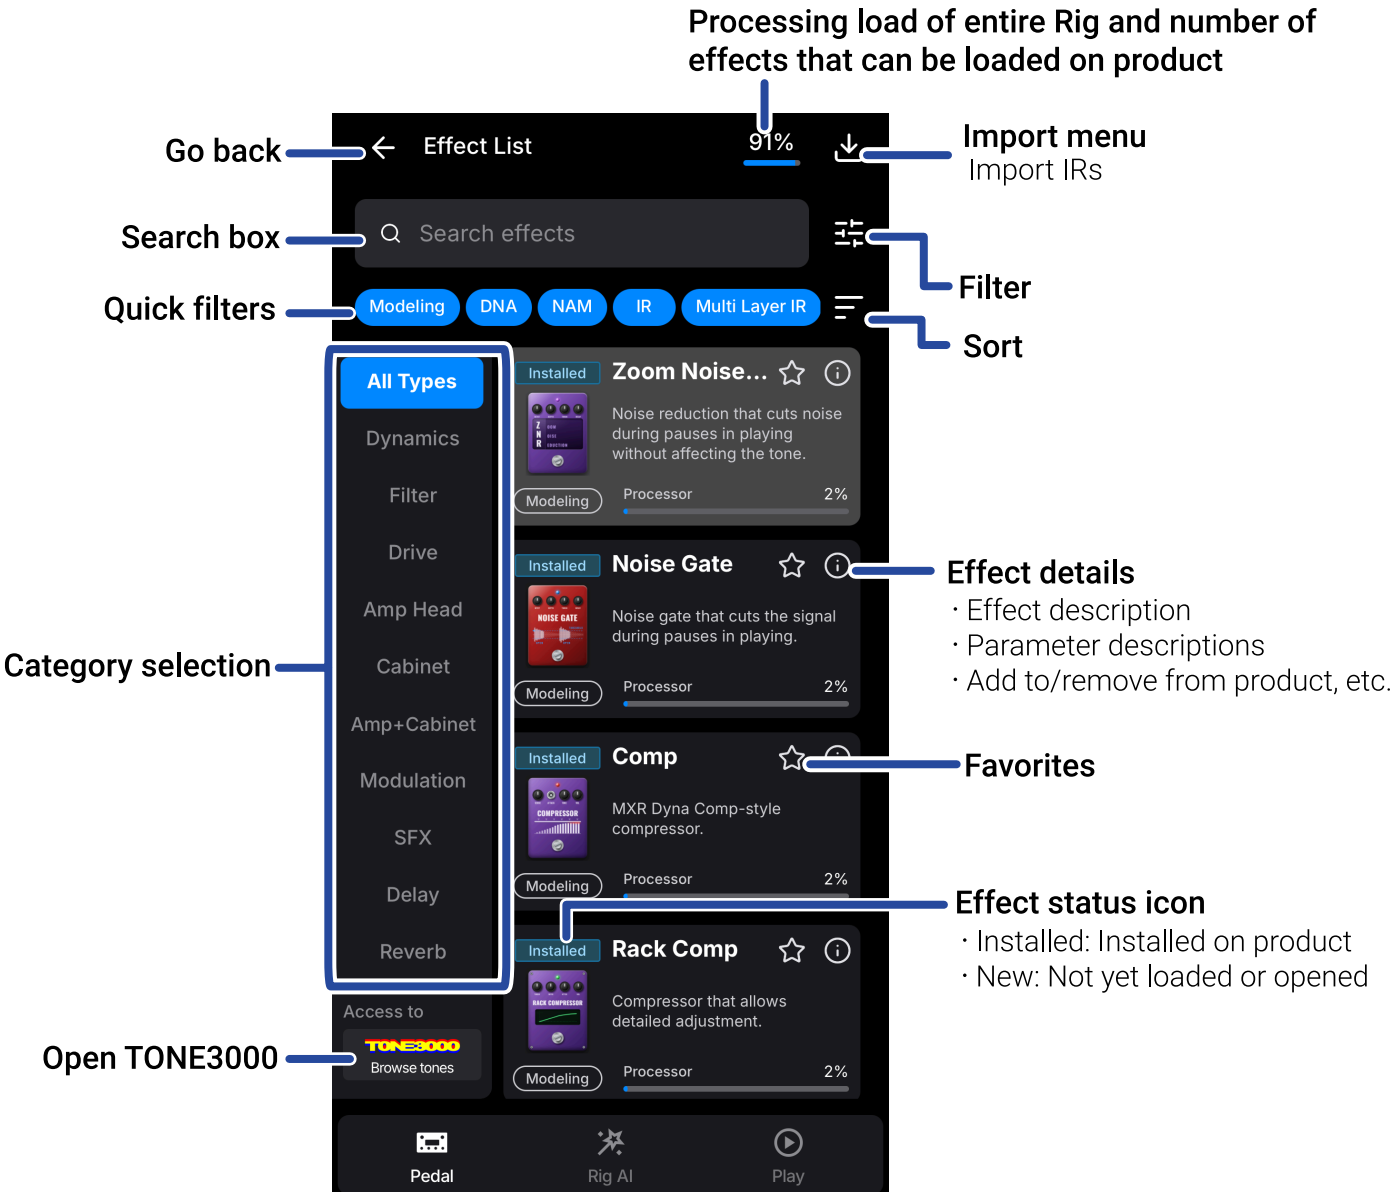

Pedal Screen

You can perform all basic operations, including Rig management, with the app's intuitive touch controls. You can operate smoothly from the smartphone or tablet in your hand without touching the pedal at your feet.

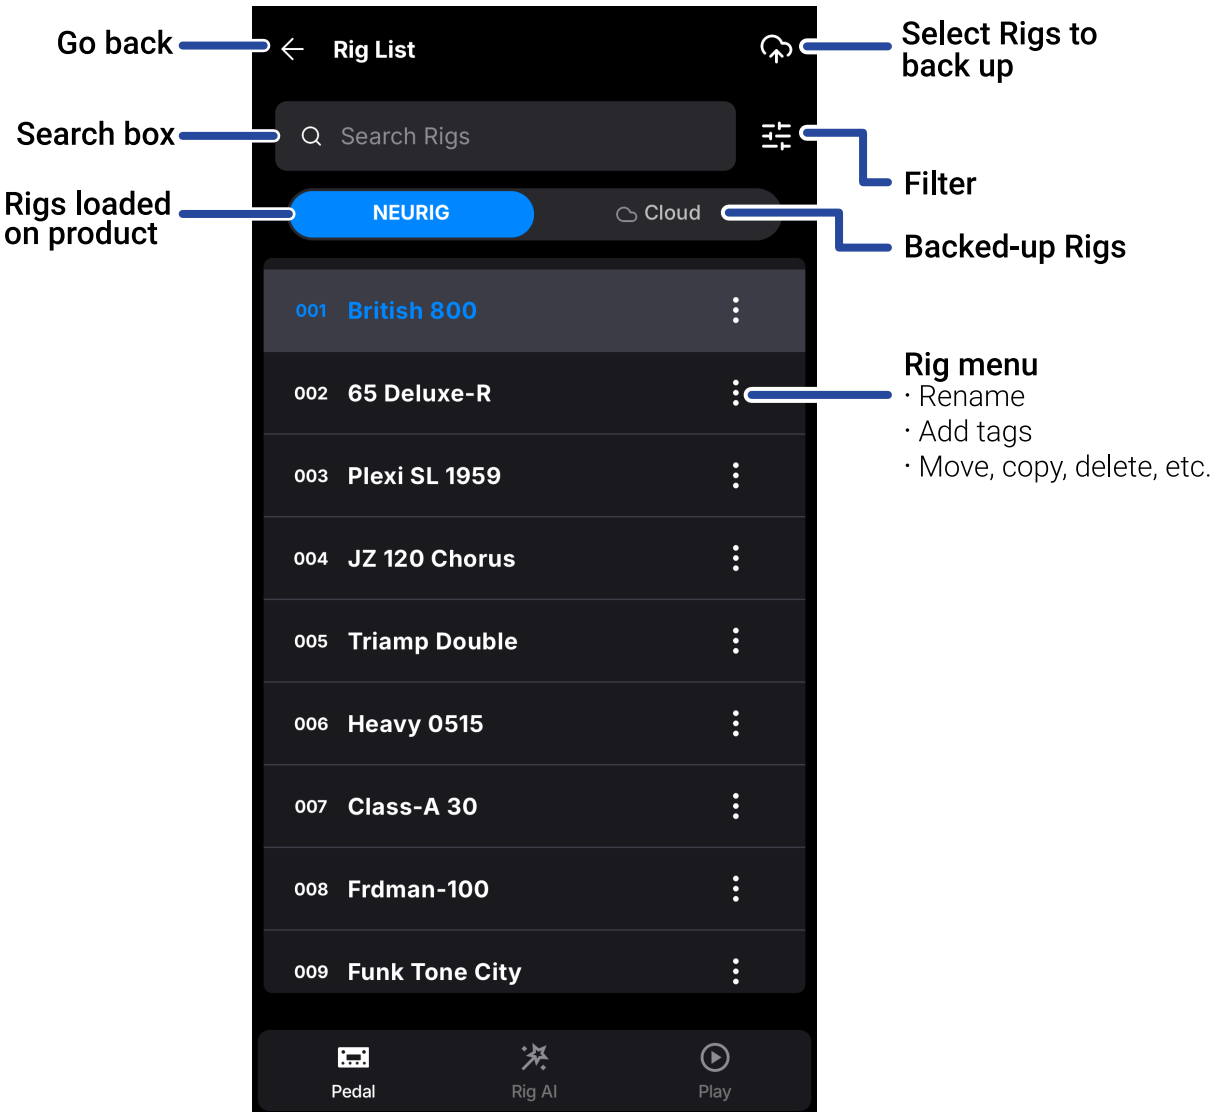

Pedal Screen

Effect Selection Screen

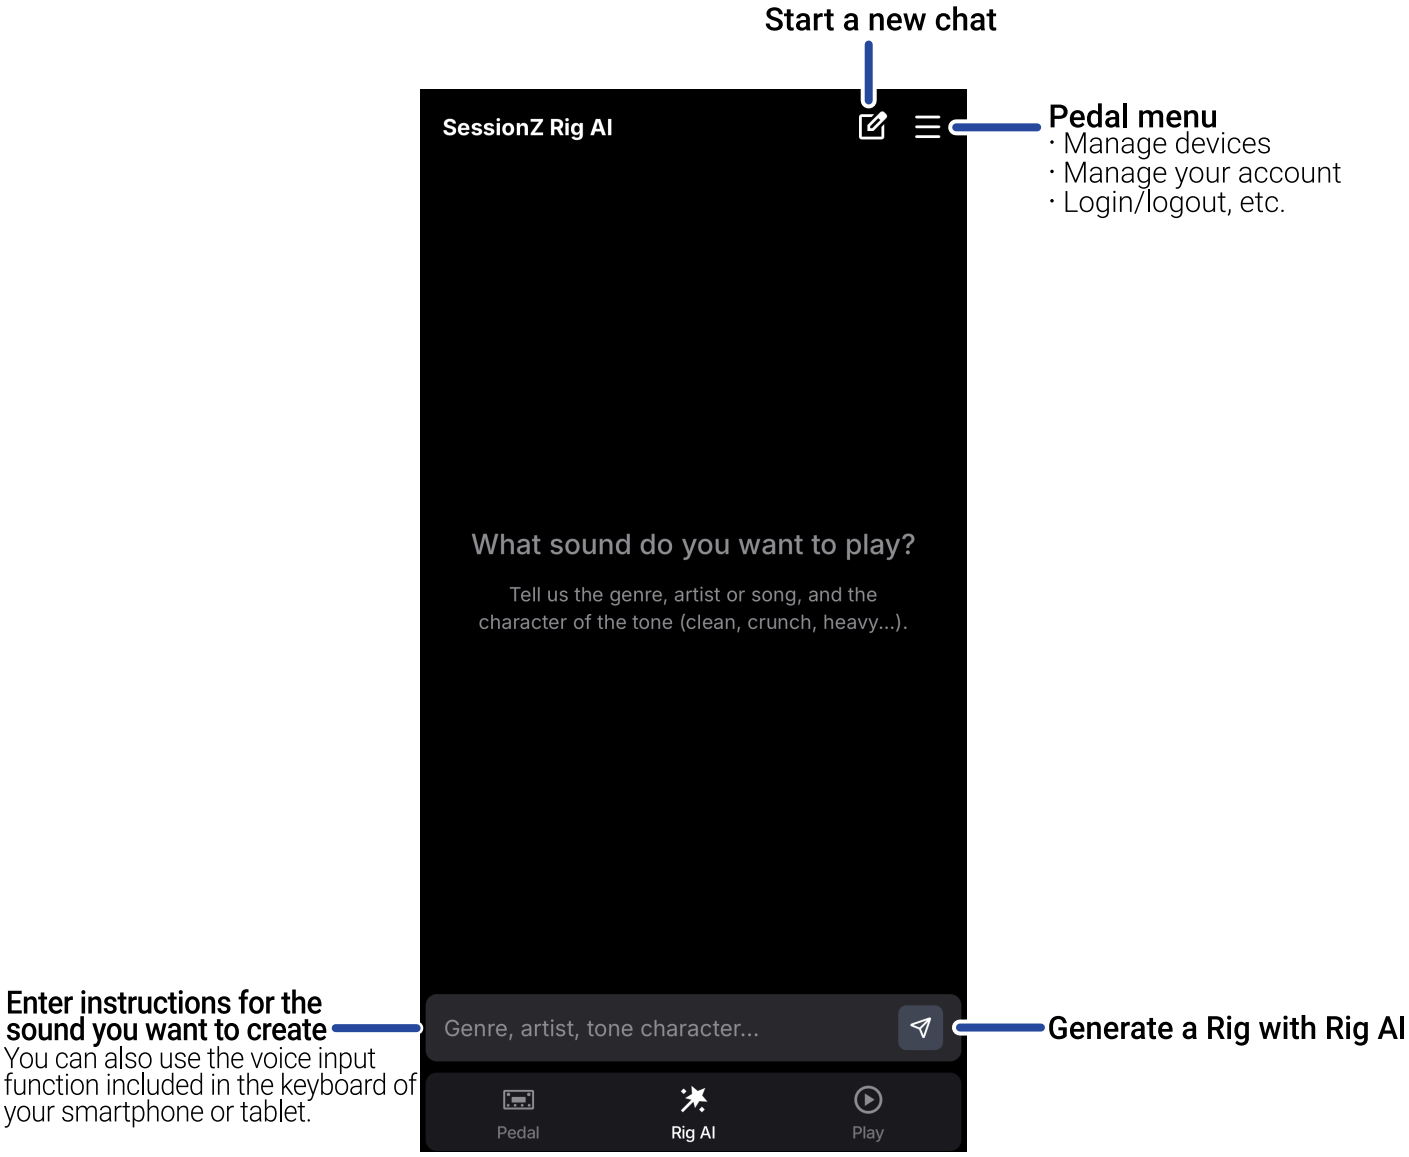

Rig Selection Screen

Rig AI Screen

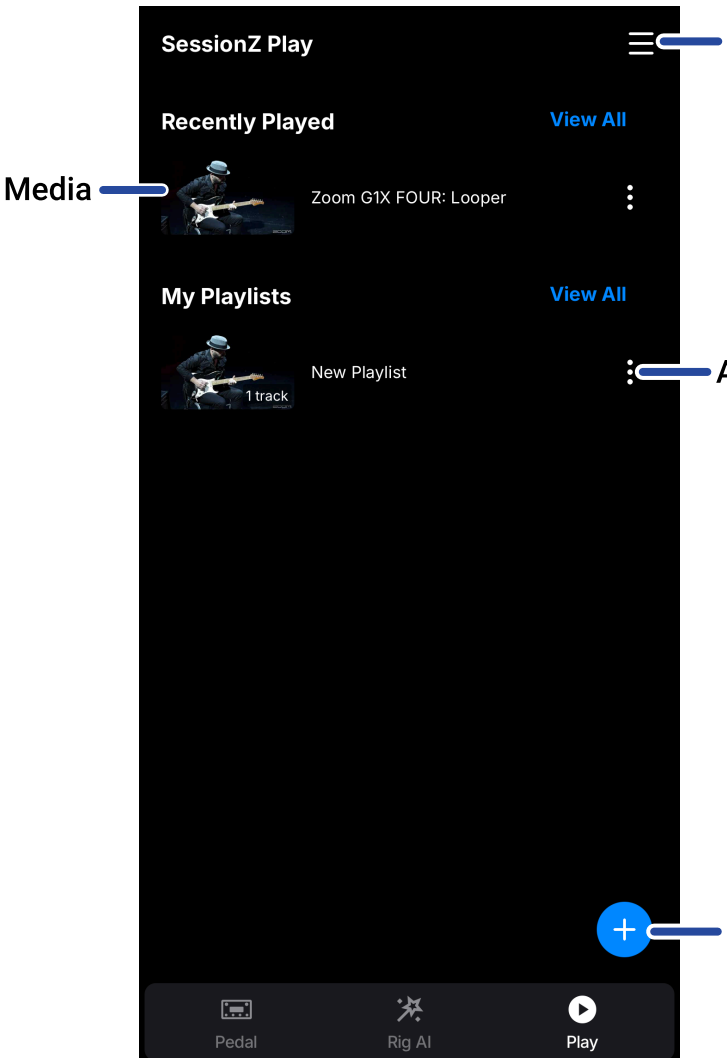

Simply enter a song title or a description of the sound as text, such as "the guitar solo sound from [song title]" or "a dreamy, expansive tone," and the AI will generate the optimal Rig. Even if you are not familiar with equipment, the AI will support your sound creation.

SessionZ Play Screen

Playlist Screen

This player function lets you play audio from YouTube or audio files on your smartphone or tablet. While playing the guitar, you can freely control play, stop and 10-second skip functions, for example, with the footswitches at your feet.

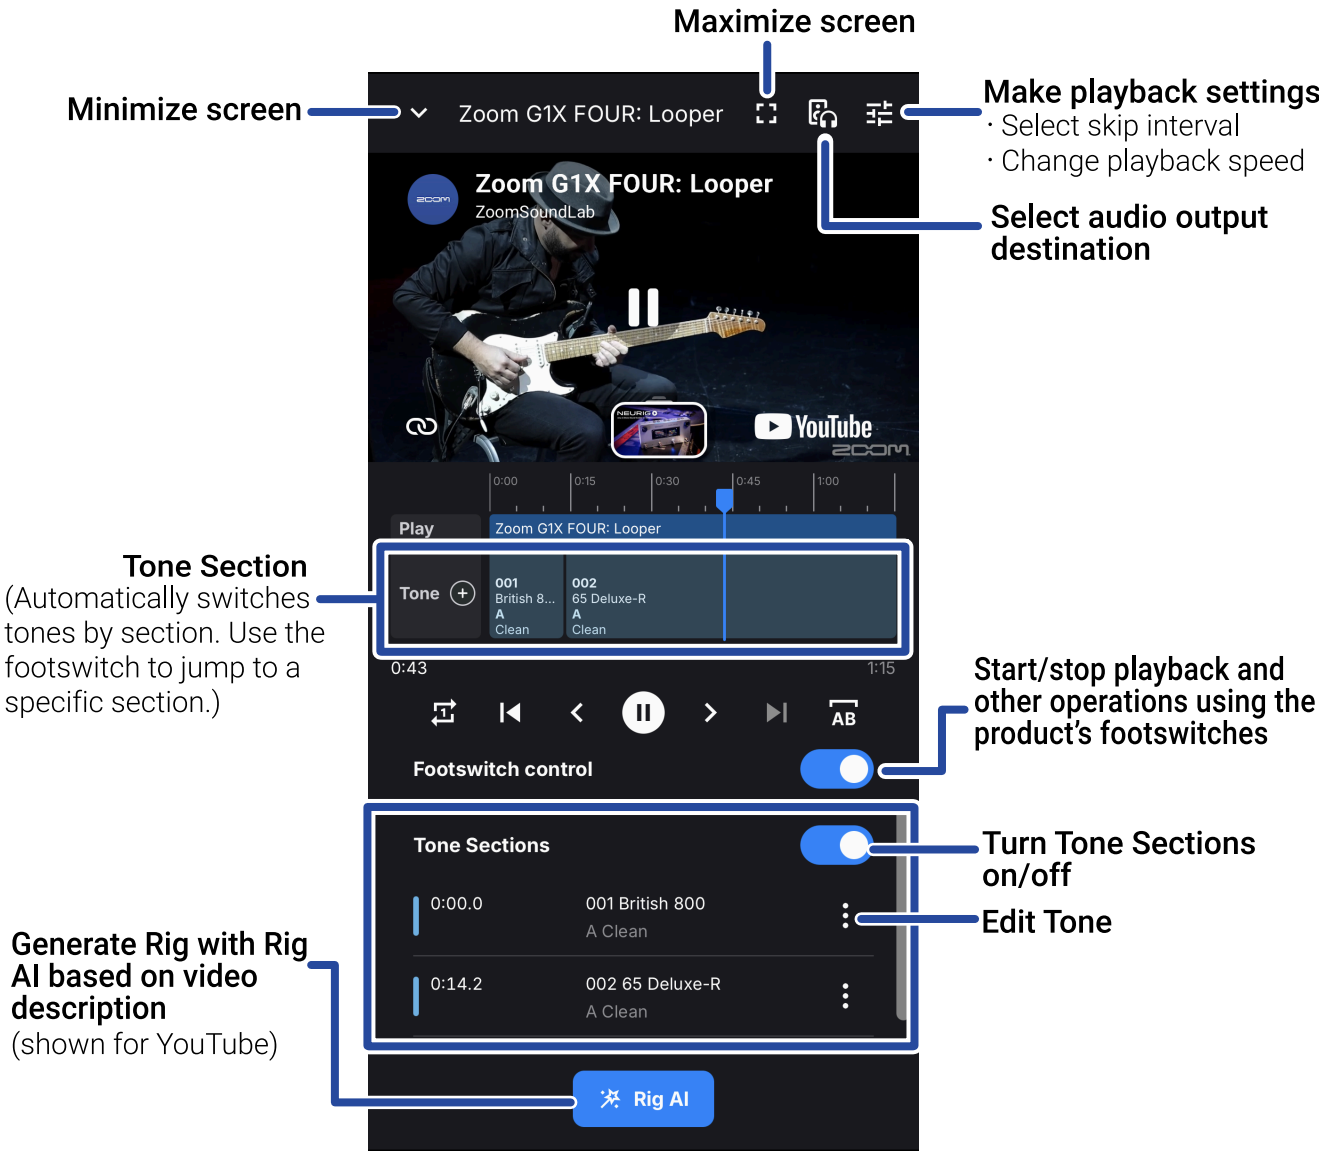

Pedal menu
· Manage devices
· Manage your account
· Login/logout, etc.

Media

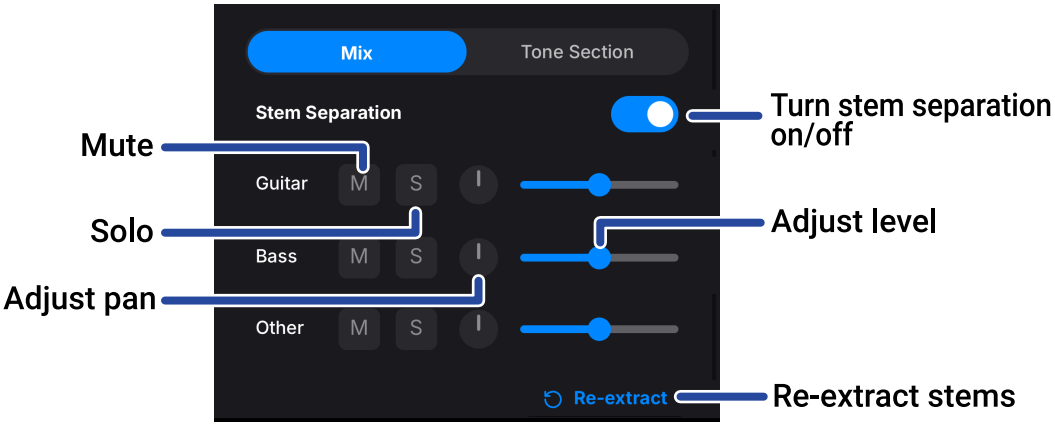

Add to/remove from playlists

Search for videos, select music files, create playlists
From subscriptions, only purchased music files can be selected.

Player Screen

■Mix Tab (shown for music files)
