F8n Pro Firmware Update Guide
Introduction

■ **Items to prepare**
F8n Pro
Dedicated AC adapter
ZOOM AD-19

Windows or macOS computer

with Internet access

SD card

■ **Firmware update process**

1. Download the firmware update file.

2. Extract the ZIP file.

3. Copy the firmware update file to an SD card.

4. Update the firmware.

5. Confirm that the firmware has been updated correctly.

Updating the Firmware

This guide explains firmware update to version 1.10 as an example.

1. Download the firmware update file.

Download the ZIP file that contains the firmware update file from the F8n download page.
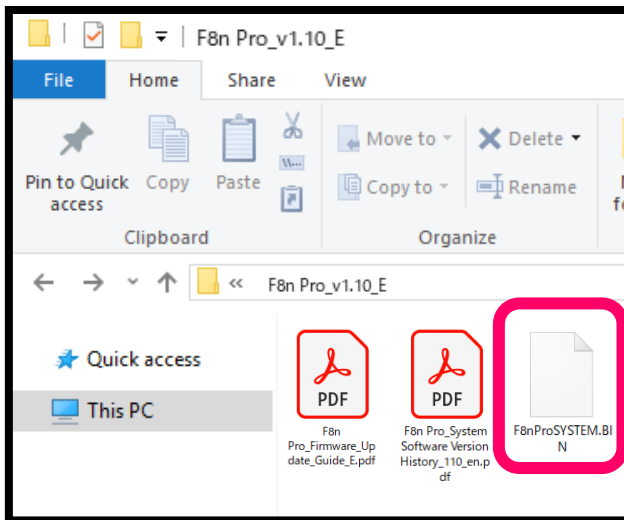

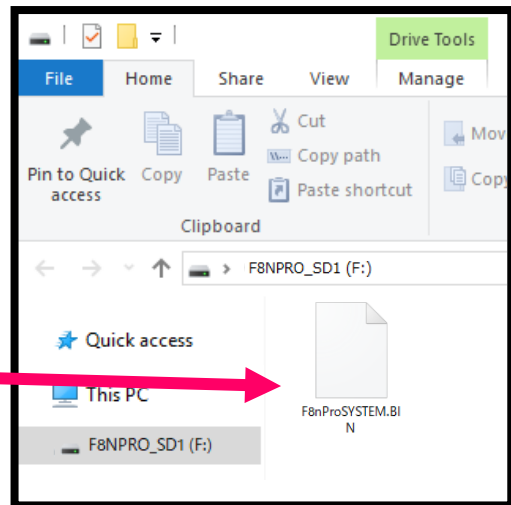

On Windows

2. Extract the ZIP file.

Select the folder that contains the downloaded ZIP file. Click ① "Compressed Folder Tools" followed by ② "Extract all". This extracts the ZIP file.

3. Copy the firmware update file to an SD card.

Copy the "F8nProSYSTEM.BIN" file to an SD card.

Firmware update file

Copy the firmware update file to an SD card.

On macOS

2. Extract the ZIP file.

After downloading, open the ① "Downloads" folder, which appears at the right end of the Dock by default.

Then, click ②. Downloaded files will be shown.

3. Copy the firmware update file to an SD card.

Copy the "F8nProSYSTEM.BIN" file to an SD card.

Firmware update file

Copy the firmware update file to an SD card.

The following procedures are the same on both Windows and macOS.

**4.** Install new batteries in the F8n Pro or connect an AC adapter.

    <u>NOTE</u>

    The firmware update is not possible if the remaining battery power is low.
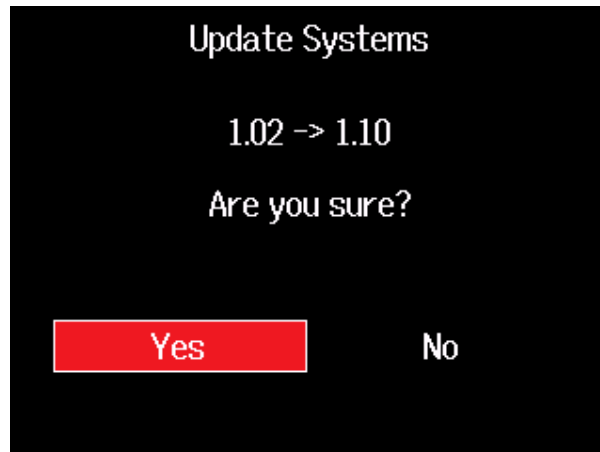

5. Insert the SD card into the SD CARD 1 slot.

6. Turn the power on while pressing ▶/❚❚ .

7. Use ⟲ to select "Yes", and press ⟲ .

Update Systems

1.02 -> 1.10

Are you sure?

Yes   **No**

The firmware update starts.

NOTE

During the firmware update, do not turn the power off or remove the SD card. Doing so could cause the F8n to become unstartable.

8. After the firmware update completes, turn the power off.

Update Systems

1.02 -> 1.10

Complete !

■ ■ ■ ■

Please power off.
NOTE

In the unlikely event that firmware update should fail, conduct the procedures to install it again to update the firmware.
