	Redmi Note 9 Pro	11 (MIUI 12)	●

*1: To use an OPPO device connected by USB, Settings > Additional Settings > OTG Connection must be set to on.

(This must be set every time it is connected. It will be disconnected automatically after 10 minutes without transmission.)

*2: Models with Qualcomm Snapdragon CPUs were confirmed for operation.

Models with Samsung Exynos CPUs were not confirmed for operation.

Note: This information shows the results of operation confirmation conducted by our company. This is not a guarantee that no issues will occur with the above devices.

Note: Steinberg Cubasis 3 for Android is not supported because it only works at 48 kHz.
